High Performance
Traditional & Contemporary Composite Doors

What is a composite door?

Your front door is one of the most important features of your home, so why not create a stylish entrance that you, your guests and passers-by can admire. Come home to a centrepiece that is strong, safe and secure, functional for everyday use, energy efficient and pleasing on the eye.

Our composite doors incorporate a combination of the finest quality components that all purposefully work together to create a high performance door. The surface of the door is made from GRP (Glass Reinforced Polyester), which is considerably stronger than PVCu.

The Definitive Collection composite door is built to last and will easily stand up to the challenging demands of the British climate.

From 15th June 2022, new building regulations relating to Windows and Doors apply across the UK for both replacement and new-build installations. The 'U' Value requirement for replacement products differs to that of new build. Each door depending on design and glazing differs in 'U' value. For any new build projects once you have chosen your new door please consult with your installer to make sure the correct 'U' value is being used for your SAP calculation which in turn determines your energy performance certificate.

You can be assured that all of the Definitive Collection Composite Doors achieve excellent 'U' Values, with all doors performing to the new regulations for replacement installations. The 'U' value is a measurement designed to measure heat loss through products such as windows and doors, the lower the value the more energy efficient the product becomes.

Our composite doors are all bespoke and are individually made to measure with your own personal specification and colour/design choices. Our doors are covered by a comprehensive guarantee so please speak to your installer for further details.

“Raising security standards with an uncompromising approach to designing out crime”

Who we are...

The philosophy underpinning The Definitive Collection is driven by our desire to offer you products that have been designed and manufactured with a 'no compromise' attitude.

Regardless of the style of property you live in, we are sure to have a perfect solution to meet your design aspirations. The Definitive Collection offers you a comprehensive choice of products either from our classically styled sculptured range or from our more contemporary styled chamfered range.

High performance solutions are available to suit any application, whether you are looking for a sympathetic door replacement for your 18th century farmhouse, or a more contemporary look for a modern house or city centre apartment. You can even have your door in any colour you want! Your decision...Your choice...

The Definitive Collection has built a strong reputation over the last 30 years for taking an uncompromising approach to the components we use. Unlike windows, a front door is generally used several times every day and therefore the locks and furniture need to be of the highest quality. We only fit premium branded products that we are confident will last year after year standing up to the toughest conditions with our changing British climate.

High Quality Materials

Made In Britain

Energy Efficient

Stylish

Strong & Secure

One philosophy... Two choices...

“VEKA is the most specified profile in the world”

As well as choice of style, colour and glass, you can also choose from one of our two frame design options to create that perfect match. The frame designs are also available in a range of coloured and wood-grained foils.

Composite Door Features

- 1 Stormguard low level aluminium thresh with optional Document 'M' wheelchair ramps
- 2 Authentic timber looking PVC weather-bar
- 3 GRP compression moulded skins
- 4 **Polyurethane thermally insulated core. The thermal performance of this product is far superior to timber**
- 5 Engineered timber frame
- 6 Adjustable hinge
- 7 Wool-pile weather seal
- 8 Galvanised Steel reinforcing
- 9 Black low line gasket
- 10 Choice of Sculptured or Chamfered outer-frame
- 11 2mm PVC Grained edge-banding
- 12 Foam bung reduces perimeter air circulation from drainage holes

Thresholds

We offer a wide range of thresholds for our composite doors.

Our aluminium 44mm rebated threshold carries the best weather performance and is available in either silver or gold. The shape of this threshold mirrors either the chamfered or sculptured frames providing a suited product.

We also offer two different sizes of PVCu threshold.

Our lowest profile threshold is available in either silver or gold and is suitable for wheelchair access using the optional ramps that can be fitted both internally and externally.

the outer skin...

The outer skin is compression moulded using Glass Reinforced Polyester. This creates a high definition grain effect that cannot be achieved using standard panel technology.

the core...

The core is filled with an insulating core of 100% CFC-free polyurethane. The performance of this product is exceptional, outperforming timber nine times.

the perimeter...

The core and timber surround is protected by a perimeter of water resistant polymer instead of timber. Rather than purely relying on treated timber, this product ensures that no water can penetrate to the core. Being a polymer, it has none of the drawbacks of timber.

Safe and Secure

As one of the oldest international brands, Yale is among the most respected names in the lock industry, with millions of Yale locks in use worldwide.

You will be comforted to know that our Composite doors are fitted with the worlds leading lock brand Yale as standard with the exception of our contemporary door range which are fitted with Winkhaus key-wind locks. Both Yale and Winkhaus products are accredited with 'Secured by Design'.

The Winkhaus 'Thunderbolt' key-wind lock is used in conjunction with our stainless steel bar handles or any door supplied without a lever handle. The euro cylinder (where you put the key) is positioned higher up the door. When the door is closed the lock will engage on the latch only. To lock or re-open the door from outside you will need to use the key.

Latest technology

The Definitive Collection offers you the latest technology in high security cylinders to provide the ultimate resistance against all known attack methods.

The euro cylinder lock (which is where you put your key to lock the door) is the single most important safety feature on any door. The Yale cylinder carries the highest accreditation available in the UK, All of which is demonstrated on page 6

The world's favourite lock

Our composite doors all come with **5 keys as standard**

Due to supply chain disruption we reserve the right to change some of the products featured with an equivalent specified product without prior notification

Tried, tested and then some...

Yale locks are the highest accredited range of euro cylinder locks currently on the market. Tested regularly and independently by locksmiths and security professionals - the Yale lock range has been proven to be secure.

SNAP SECURE

Precision engineering high security door cylinder

Anti-Pick, Anti-Bump, Anti-Screw, Anti-Pull and Anti-Drill

Enjoy total peace of mind with the Yale £1000 guarantee

Across the world, millions of people protect everything they care about - their families, homes and personal belongings - with Yale, the best known and most respected name in home security.

Designed, developed and tested by the UK's most trusted lock company, the Yale Platinum 3-star cylinder is so secure that if your home is broken into during a burglary attack, Yale give you £1000* to apologise for the inconvenience caused!

£1000

ANTI-SNAP GUARANTEE

*All Yale Cylinders must be registered within 30 days of installation at help.yale.co.uk

Anything but standard.

We are Document Q approved! But what does this mean ?

In 2015, changes were made to Building Regulations which are outlined in Approved Document Q.

All New Build homes started after October 2016 must meet the enhanced security requirements of Document Q. (ADQ does not apply to any extensions, Sun rooms or Conservatories)

To comply with Document Q, our doors must by law feature upgraded security enhancements via the cylinder, slab and glass. This is an upgrade available on our doors, they do not come Document Q approved as standard.

If you are unsure if this applies to your door then you must speak to a Registered Building Inspector.

Did you know... Over 70% of all burglaries are accessed through a door, yet there is no minimum security standard in the UK for replacement doors. Rest assured that all Definitive Collection doors are fitted with Yale or Winkhaus multi-point locks and 3 star high security euro cylinders as standard.

Living Life in Colour...

Let your imagination run free and enhance your Composite Door with our unparalleled range of colour options.

Our **Standard** range comprises of five colours and our **Premium** range adds another seven stunning colours.

To truly let your imagination run wild, you can specify your composite door in any colour you want with our **Bespoke** painted range.

“Our composite doors can be coloured both sides”

Bespoke RAL colours displayed are a representation only, we cannot guarantee an exact colour match due to the limitations of the photographic, reproduction and printing processes.

“Available
in over
1,000,000
colour
combinations”

Bespoke Painted Colours*

The Definitive Collection Composite Door range can be supplied in any colour for a small premium. All we need is a RAL colour or recognised BS reference and your new door will represent your individuality.

A Definitive Collection installer will guide you through the process to help create your perfect door. All doors are supplied using a Satin finish.

The colours of the doors and glass shown in this brochure are for guidance only and may vary owing to the limitations of the photographic reproduction and printing processes.

*Please note, all bespoke painted colours carry a 5 year colour fast guarantee. Bespoke RAL colours displayed are a representation only, we cannot guarantee an exact colour match due to the limitations of the photographic, reproduction and printing processes.

“Did you know, you can
also have the outer frame
to match the door leaf?”

THE TRADITIONAL COLLECTION

The Traditional Collection incorporates historical design classics that are sure never to fade in their appeal. Homeowners will feel comfortable in their choice of elegant styles rich in variety, colour and heritage. Complimented by classical glass designs and furniture the Traditional Collection will stand the test of time.

Custom Etch Letters & Numbers

The Definitive Collection of Custom Etch Letters and Numbers is available in a range of 6 styles and 4 fonts, ranging from traditional to contemporary and make a striking statement whether used in the door glass itself or in the sidelights/toplights.

Specifying your Custom Etched Letters and Numbers is as easy as **1... 2... 3...**

1. Choose your Door Style...

Ayton Ganton Malton Newby 1 Newby 3 Filey Wykeham Broxa Sawdon

2. Choose your Design Style...

Style A (Herringbone Border) Style B (Vertical Border) Style C (No Border) Style F (Ayton, Ganton & Sidelight only) Style Av (Herringbone Border - Broxa & Sawdon only) Style Cv (No Border - Broxa & Sawdon only)

3. Choose your Font Style...

Bodoni - abcdefghijklmnopqrstuvwxyz
 ABCDEFGHIJKLMNOPQRSTUVWXYZ 0123456789

Dekar - abcdefghijklmnopqrstuvwxyz
 ABCDEFGHIJKLMNOPQRSTUVWXYZ 0123456789

Franklin - abcdefghijklmnopqrstuvwxyz
 ABCDEFGHIJKLMNOPQRSTUVWXYZ 0123456789

Times - abcdefghijklmnopqrstuvwxyz
 ABCDEFGHIJKLMNOPQRSTUVWXYZ 0123456789

We offer standard sizes for the composite doors featured in this brochure. We also offer a customer size service for use in Toplights and Sidelights.

All our custom etch designs are produced using sandblast techniques and with a computer designed 'resist' cutter, we can ensure perfectly created letters and numbers every time.

Once the design is created, it is then incorporated within a high performance insulated glass unit using warm edge spacer and low E glass.

For areas where extra security may be required, we also offer the range in our Security+ laminated glass units.

An eye for detail...

To keep up with marketplace demands, we have specially sourced a wide range of durable hardware in a good selection of colours and finishes, guaranteed to add those individual finishing touches. These have all been designed to withstand the rigours of the British weather and will still look good in years to come.

The Definitive
collection

www.thedefinitivecollection.co.uk

Thank you for choosing your new Definitive Collection Composite Door(s).

To keep the pristine look of your new door please observe these simple instructions:

Cleaning your door every 4-6 weeks

Part of the door	Cleaning	Finishing
Door Lead	Keep the grime & grit away with a warm damp cloth (do not use washing up liquid) dry with a micro-fibre cloth.	
Door Frame	Wash with warm soapy water with a soft cloth.	Shooborn stone will demand specialised PVC-U cleaner (not to be used on the painted door lead)
External Glass	Wash with warm soapy water with a soft cloth.	Finish with a proprietary glass cleaner
Locked Glass	Wash with warm soapy water with a soft cloth.	Finish with a proprietary glass cleaner (some oxidation may naturally occur)
Hardware (handles, knockers & knobs)	Wash with warm soapy water with a soft cloth.	Use a micro-fibre cloth to shine

CAUTION! DO NOT USE

Washing up liquid or detergents, abrasive cleaners or scouring pads, high pressure or bleach cleaners, bleach (sprays, powders or tablets) or abrasives. Before cleaning your door remove all jewellery including watches to avoid scratches.

Thank you for choosing your new Definitive Collection Composite Door(s).

To maintain the pristine look of your new door please observe these simple instructions:

Maintain your door every 6 months

Part of the door	Recommended Maintenance	Notes
Hinges	Keep them at their best by lubricating with a little light engineering oil e.g. 3 in 1	Every 6 months
Euro Cylinder Locks (where applicable)	We recommend a PTFE based lubricant. A small amount of lubricant should be applied to the key and then inserted into the cylinder to slide the key a couple of times.	Every 6 months
Hardware (handles, knockers)	Just add a touch of engineering oil on all moving parts	Especially important if you live near the coast or by a building or industrial site

Yale The world's favourite lock since 1843

IMPORTANT!

Protect your door from rotting through distortion. Make sure the top & bottom hook bolt heads are engaged by cutting the handle up every time you shut the door.

The Definitive
collection

Confidence comes from knowing that The Definitive Collection range of composite doors are designed and engineered with the very highest standards of quality, security and reliability in mind.
